

During the last twenty years Arrowhead Rockdrill has established itself as a world-class manufacturer of replacement tools and wear parts for hydraulic hammers. Now, with a worldwide sales and support network in place, Arrowhead Rockdrill offers one of the most complete design, manufacture and service packages available to the construction industry.

INNOVATORS IN VALUE

Arrowhead Rockdrill is proud of its reputation for producing high performance machinery that is rugged, but simple to use and maintain. End users will find it easy to afford the high quality of an Arrowhead product, larger companies will value both the competitive price and low running costs, and hire companies will enjoy a rapid return on their investment.

THE ARROWHEAD 'S' RANGE

Our programme of continuous investment and product development has allowed us to create a hydraulic hammer range which competes with the best in the world, and which is now being used all over the world. Now, the development of the Arrowhead 'S' range offers the very latest in Vibrosilenced hammer technology for every type of application - all backed by Arrowhead's unique on-site servicing and rapid replacement parts supply.

ARROWHEAD ROCKDRILL 'S'

The Arrowhead Rockdrill, 'S' range offers high quality, long life and excellent serviceability, but at an Arrowhead price. The range includes hammers with all the power needed for the toughest applications all within one of the most compact designs available.

Our commitment to provide Value through Innovation allows Arrowhead Rockdrill customers to have the quality they demand at the price they prefer, with no loss of performance or after-sales support.

Features of the 'S' Range

- Lower maintenance, with a boltless mounting system.
- Vibrosilencing reduces total operator & carrier machine vibration exposure.
- A high quality, modern hammer at a surprisingly low price.
- Lower guaranteed sound power levels.

REPLACEMENT TOOLS & PARTS

Arrowhead Rockdrill is also a major manufacturer of high quality replacement wear parts and breaker tools to fit most popular hydraulic breaker types and models. Arrowhead has over twenty years experience in the wear parts and tools business and holds a large selection of precision-made replacement parts which match the standards of even the most exacting original manufacturer. Whatever replacement part or tool you might need, rest assured in the exceptional quality of Arrowhead Rockdrill breaker parts.
